REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Although the closest prior art teaches propylene polymers polymerized with catalysts of the type as required by applicants' claims and also teaches blends of propylene polymers as required, The extrapolation of performance from the polymers produced using specific catalysts as required by applicants' claims to the blends would not reasonably be predicted in a way to be obvious, but rather would be "obvious to try". The showing that the blends of applicants' claims possess improved characteristics over those in the prior art overcomes a reasonable prima facie case of obviousness, and, therefore, renders the claims both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
